

BERK KARABEYOĞLU

Full Stack Developer | React, Next.js, TypeScript | UI-Focused | Open to Relocation

Summary

Results-driven Full Stack Developer with 4+ years of experience delivering modern, high-performance web applications using React.js, Next.js, Vue, and TailwindCSS. Passionate about building clean, pixel-perfect UIs and seamless user experiences, with a solid foundation in Java, microservices, and SQL for effective full-stack collaboration. Excited to contribute and grow in innovative, international tech environments.

Work Experience

Software Engineer | DepoDone, Remote | Nov 2022 – Mar 2025

- Developed and maintained responsive web interfaces using React.js and TailwindCSS.
- Created pixel-perfect components based on Figma designs.
- Built user/admin dashboards using Vue3 and Vuetify.
- Designed database tables and developed CRUD services using Java, microservices, and SQL.

Junior Software Developer | EMakina.TR / EPAM Systems | May 2022 – Oct 2022

- Delivered frontend components for a CMS platform using React.js and JavaScript.
- Built dynamic data tables and logic-heavy UI sections based on client requirements.

Software Developer Intern | Akartas Holding | Feb 2021 – Mar 2021

- Assisted in designing mobile interfaces with React Native.
- Worked on basic UI layouts for the company website and mobile prototype.

Projects

Paltivity | React Native, Expo, Supabase, TypeScript

A location-based social event app where users can create and join nearby events, with real-time group chat and live push notifications.

AI Image Platform | Next.js, Supabase, TypeScript, TailwindCSS

A SaaS platform for AI-powered image generation with user authentication and a credit system. Live at: <https://ai-platform-5n5x.vercel.app/>

Technical Skills

Frontend: React.js, Next.js, Vue3, Vuetify, TailwindCSS, Bootstrap, Framer Motion, React Native, Expo

Languages & Tools: JavaScript (ES6+), TypeScript, Java, HTML5, CSS3, Node.js
